

FRIDAY, FEBRUARY 11, 1881.

NEWS OF THE MORNING.

It is reported that all Roman Catholic Bishops in Ireland will be convoked by their Archbishops to consider the new Land bill.

A half witted girl was invigiled into a saloon at Harrison, Claire county, Ontario, on Monday night, and outraged by seven lumbermen. There is great indignation among the people there because the authorities have taken no notice of the horrible crime. No arrests have yet been made, although the brutes are known.

Another terrible railroad accident occurred last Tuesday at Owanoeco, Ill. As a construction train on the Ohio & Mississippi railroad was backing towards the town, having a caboose attached containing thirty men, it collided with a passenger train leaving the town, at a rapid rate to make up for lost time. The passenger engine struck the caboose and tore clean through it, killing several and wounding most of the others.

City Marshal L. H. Abington of Colliersville, Tenn., attempted Wednesday night to arrest a desperado who was creating a disturbance in a saloon in that city. The man resisted Abington and also a young man named Will Payne, who had gone to the assistance of the City Marshal, whereupon Payne seized a shotgun and blew off the head of the unknown ruffian.

At a meeting of the Land League in Dublin Tuesday Dillon urged continuance of the agitation, even after the passage of the Coercion bill, and advised tenants to resist landlords in every way short of physical force, for which they were not prepared. A resolution was passed declaring that, in view of the importance of securing the sympathy of Americans and the Irish in America, Parnell be requested to proceed to America immediately.

THE LEAGUES AND LAND MONOPOLY.

A bill has been introduced in the California Assembly and passed to the first reading which provides that no individual shall be allowed to own more than 5,000 acres of agricultural land. What supreme nonsense. When the matter goes to the Supreme Court it will be knocked higher than the mythical "Gillroy's Kite." Instead of progressing with the balance of the United States California appears to be going backward. If half or two-thirds of the members of the present California Legislature would pass a bill to build an additional lunatic asylum and after its completion lock themselves in it, the people would give them credit for as much sense as they possess. The cry of a landed monopoly in this country is the sheerest nonsense. In England and the old European countries, where they have the law of "entailments," where land descends by law to the oldest son, or some other member of the family, down through succeeding generations, the owner cannot sell it, even if he would, so as to deprive his heir of his rights of entailment, these large land monopolies can and do exist; especially so, where large properties have been combined by marriages. But in this country we have no such law; and no large land owner can entail his land, even if he desired. The most he can do, is to give a life-lease, and the remainder to certain heirs in fee. Here should a man own 20,000 acres, in a few years, at most, he must die, and then it is distributed among his heirs; and in a generation or two it must necessarily be divided up into small farms. Take all of the States, when they were new, certain men owned whole counties, sometimes several counties. But how is it now? There can scarcely be found in any State, from the Atlantic to the Mississippi river, a farm exceeding 1,000 acres; and ninety-nine out of every hundred they do not exceed one hundred and sixty acres. And it will be found that all, or nearly all, of the few large farms have been purchased by the owner, and are comprised of several small farms combined. And as soon as he dies they will again be divided by the heirs. So it will readily be seen that an aristocracy or land monopoly is impossible in the United States and all this harping and howling about land monopoly, is only the deceitful cry of the demagogue, or of those who are ignorant of American institutions. There are millions of acres of good land yet to be taken up at Government prices, in this country; and if anybody is anxious to secure a farm he can do so, upon the same layout that everybody else has. The great trouble is, the cry of land monopolies generally comes from that class who would not work on the land if it was given them; or they want rich men to spend their money in reclaiming desert or swamp lands, and then give it to them for nothing.

That Low Breed.

We have received from the miners, or purports to be from the miners, of Spring City, Humboldt county, a cartoon of General Grant, as a reply to the item we published concerning the insult offered to the Ex-President by those persons, two or three weeks ago. For the good name of that place, and the common decency and self-respect of the miners, we had hoped that the report upon which we commented was unfounded; but the trouble taken by some one or more persons from there to send the cartoon, convinces us that there is at least one denizen of that little burgh who is such a narrow minded bigot, that he would insult and cartoon his own mother, and think it a smart trick, if he could only create a laugh over it, by a crowd of ignoramuses, having no better breeding, nor higher minds, than himself. We will venture the prediction that the curs who could willfully perpetrate such an affront on a man honored throughout the length and breadth of the land, are not citizens, at least, native born citizens of the United States; that they never had a square meal of victuals in their life until they came to the country they so wantonly insult; and we repeat, "they must be of the lowest breed of mongrels that ever stood on two legs."

The Ship Railway.

Captain Eads appears to be making real progress with his ship railway project, having received the approval of a Congressional committee for a bill granting his inter-oceanic railway company a Government guarantee of five per cent. interest on a capital of fifty millions, the said guarantee to be withheld until he has demonstrated his ability to carry a vessel weighing with her cargo not less than two thousand tons, at the rate of six miles an hour. At the completion of the first ten miles the Government is to pay the first installment, and so at the completion of each succeeding ten miles. The consideration is to be the contract of the company to carry all the mails and Government ships and material free of cost. It remains to be seen whether Congress will accept this bill, but it is evident that if it does the ship railroad will soon be begun.

A Mormon Gun Spiked.

Tuesday afternoon the attorney of George Q. Cannon made application to the United States District Court in Salt Lake city for a writ of mandamus against Secretary Thomas, who is Acting Governor during the absence of Governor Murray, requesting him to give a certificate of election to George Q. Cannon. The writ was granted by Judge Hunter, requiring Thomas to show cause on Monday why the certificate should not be given Cannon. On Saturday a demand for the certificate was made by Cannon's attorney, when the Secretary informed him that the matter had passed beyond his control and was now before the House of Representatives. The Mormon Church will accomplish nothing by this movement.

A few weeks ago the Silver State contained the account of the death of a child from drinking lye, which was carelessly left within reach of the little one. It now records the death of another child from a similar cause, which occurred at Smelser's ranch, south of Golconda, a few days ago. A two-year old child of Mr. and Mrs. Smelser drank some lye which was left within its reach, and died in great agony. When will mothers learn to be more careful?

A scout who followed Sitting Bull across the line, reports him now safe in the Woody Mountains, with some 300 persons. The country has no buffalo, and starvation awaits the hostiles. Crow King's band, 315 strong, surrendered at Fort Buford. He is next chief to Sitting Bull, and says the latter will soon come in. He wants his band settled on a Reservation to learn the ways of civilized life.

One of the jurors sworn in on the Killoch murder case Tuesday testified that he had resided in the United States thirty-three years, took no newspapers and never read or heard what they contained; and never heard of the shooting on the 23d of April last. According to modern ideas he is a model juror.

In the Pennsylvania Senatorial contest Tuesday an effort was made but voted down by a large majority to drop all the candidates now before the Assembly and name new men. The vote Wednesday showed no change.

A young man named Thomas Bryce has been arrested in Marysville, Cal., for representing himself as a Catholic priest and obtaining money under false pretences. He went so far as to hear the confessions of several ladies.

A dispatch from Dublin, says: It is generally believed that the police will seize the Land League officers, and the League will be disbanded by proclamation.

NEWS ITEMS.

One hundred and forty-eight deaths from smallpox were reported in New York Tuesday, nearly double the average number of deaths.

While some other States have been talking Wisconsin has been doing and so her tobacco crop for 1880 amounted to \$1,500,000 in value.

A fire Tuesday nearly swept out of existence the town of Walnut, on Rock Island, Iowa. Seventeen business houses and residences were totally destroyed, with most of their contents.

Bishop N. Thibault was hanged at Annapolis, N. S., Tuesday morning, for the murder of Charlotte Hill at Lakeview last September. He maintained a fearless composure to the last and made no confession.

This is a season of freshets, and if the conjunction of the planets do no greater harm we will be thankful. New Orleans is threatened from her canal levees showing weakness, and along the Missouri the loss has been serious from inundation.

Patrick Egan, Treasurer of the Land League has issued an address stating that the League is thoroughly organized and more undaunted than ever. All that is wanted is that the subscriptions of cash from the "greater Ireland across the sea" should continue to come in briskly.

At the opening of the Criminal Court at Wilmington, Del., last Tuesday, Chief Justice Comejoys called the Grand Jury's attention to a recent address of Colonel Ingersoll in that city, saying it was blasphemous, and worthy the attention of the Jury as coming under the law of blasphemy.

The Sun says: Minnie F. Lee, aged 9 years, of Newark, N. J., was bitten by a dog one month ago, and is wild with hydrophobia. Her two brothers were bitten by the same dog at the same time. Her father is overwhelmed with grief, and it is feared that his mind is unsettled by the shock.

Having exhausted every supposed channel of information, the Committee of Investigation will report to the Senate in executive session that, after careful inquiry it has been satisfactorily shown that the premature publication of the Chinese treaties was due to carelessness in the public printing office.

New Jersey has a tramp law. The penalty of imprisonment it imposes, instead of intimidating the tramps, has attracted them in such large numbers that the jails are nearly all filled with them. To be fed during the Winter at the public expense, without any labor to perform, is just what pleases large numbers of them.

The reports of the richness of the gold mines lately discovered at Takon, in Alaska, are almost incredible, one mountain being reported as a solid mass of the finest gold quartz. It is thought that after full reports have been received regarding it the excitement will be fully as great as that of California in 1849. Boys, let us go north.

A special from Bilixie (Miss.) says that the steamship Josephine, Captain Staples, from Havana to New Orleans, broke up at 3 o'clock Wednesday morning near Ship Island. The passengers and crew were all saved, after seven hours' floating, four boats being safely picked up. The passengers lost everything, no baggage being saved.

An accident occurred on the Michigan Southern Railroad, near Striker, Indiana, Monday morning, by which two sleepers were thrown from the track, and the Union Pacific Directors' car containing a number of railroad officials, was pitched down an embankment ten feet high and completely wrecked. Its occupants were all badly bruised.

Dispatches from Durban, Feb. 9th, says: General Sir, George P. Colley's force Tuesday attacked and defeated the Boers between Newcastle and the frontier and the Ingogo river. The British loss was 150 killed and wounded. The officers killed were McGregor of Raginners, Gries of Artillery, and O'Connell and Garret, both of the Sixteenth Regiment. The Boers lost heavily.

A cable to the Herald from Dublin says: Mr. Walsh, one of the recent traversers, has been induced by his friends to leave Ireland. He will proceed to Australia immediately, with the ostensible purpose of organizing a Land League. Other members of the league are going to America. The Ladies' League will leave the league office. It is probable that they will appear in new offices and under a new name this week.

New Orleans is flooded, and all the vegetable gardens in the rear of the city are greatly damaged. Some stock have been drowned. The water has reached Franklin street, the entire section west being submerged between the new canal and Bayou St. John. The water now covers all west of Previer street, except a slip of a few squares on Canal street, north of Bayou St. John and the old basin. The water covers almost the entire section west of Claybourne street, and far down Elysian Field street. The Fair grounds are entirely submerged, and the railroads washed out.

Lizzie Kern, who claims to have shot George Hines, in Stanislaus county, Cal., a short time since, in order to save herself from being killed by him when she refused his proposal or marriage, has been held to answer to the Superior Court. Physicians now claim that the wound in the head of the deceased Hines was not inflicted with a shotgun, and the prosecution has adopted the theory that Miss Kern did not do the shooting and is falsely confessing in order to shield some other party.

General Robert Toombs is reported by the Macon (Ga.) Telegraph to have said, in conversation in that city, the other day: "Jeff. Davis wrote me for my picture to put in his book along with some others. I wrote him that I would not be found in such company. I will bet \$500 that his book does not appear by the 1st of April, nor while I live."

The article written by General Grant for the North American Review, was first printed in the Chicago Tribune, and it turns out that a proof sheet was obtained at the office of the Review by a Connecticut journalist, on false pretences. A prosecution of the offender is probable, as every number of the Review is copyrighted.

New York is suffering from snow storms, hurricanes, earthquakes, smallpox, hydrophobia, and a few other pleasant things, climatic and otherwise, while we think ourselves pretty badly off with a sixty days' Legislature on our hands. Let us not be ungrateful to Providence; we might have been worse off.

The steamer Bohemian, from Boston to Liverpool went ashore, on the Irish coast, during a dreadful storm Tuesday night. Thirty-nine persons are known to have been drowned. Two lifeboats were capsized in the attempt to save the crew. The steamer is a total loss.

The electoral vote was counted Wednesday by Congress, and Garfield declared President and Arthur Vice President of the United States for four years, beginning March 4, 1881.

It is stated the holding of the National Convention in Dublin will be prohibited. Dillon advises its postponement until Parnell, Davitt and Brennan can be present.

Max Bechtel, a young German, aged twenty-three years, committed suicide on the 6th at Sacramento. He leaves relatives at Milwaukee.

There has been no choice for U. S. Senator from Pennsylvania yet, and it is thought that Cameron's man Oliver, cannot be elected.

The tenth session of the Nevada Legislature will come to a conclusion three weeks from yesterday.

Reform.

The committee reported on the claim of Thomas Tennant for \$10 for copying the Fish Commissioner's report, and found the actual work performed, at 8 cents per folio, amounted to \$3.38. The bill of Controller Hallock for similar work for \$350 was gauged by the committee at \$73.18.

The forgoing we take from a Carson paper. In our last issue we had occasion to refer to Controller Hallock's action in cutting down newspaper bills for State advertising. It is gratifying to know that there is also a power to which over the actions of over-zealous State officials. A man who suspects others is generally a fit subject to watch. Oh, Hallock! how could you? having the financial welfare of the State so much at heart.—[White Pine News.

A GENTLE HINT.—In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Roschke's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial, 10c.; regular size, 75cts.

The Record-Union admits that one of its objections to Wasson's law against tramps is the fact that stray politicians at Sacramento might come under its terms and be compelled to work in the chain gang. The lobby is afraid of serving the State in a new way.

Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

Mrs. Livermore, in her latest lecture, objects to women doing housework because it belittles their minds. Exactly. And as men can't do it, and no machine has yet been invented for the purpose, housework ought to be abolished forthwith. Then there would be no need of women any way.

According to the London Times, Dublin observer and reporter of events the experiment of governing Ireland from the banks of the Thames has ended in utter social collapse. Society itself, he says, is in ruins. Is it not time, then, to try another plan? The result may be better; it cannot well be worse.

NEW TO-DAY.

NEVADA THEATER.

SATURDAY EVE., FEB. 12, 1881

ONE NIGHT ONLY!

Vandaville Star Combination

Of Male and Female Artists.

MISS FLORA WALSH,

The Child Artist.

LOUIS DEMERS.

TOWN AND COUNTY.

The weather is again clear and pleasant, but a little chilly.

Business is very dull in the Justice Court, which argues well of the high morality of the city.

Harry Clawson, we are happy to state, is all right again—about recovered from his erysipelas.

The J. & K. mill and mine at Pyramid are justifying all expectations. The boys are all in high spirits.

The ladies of Trinity Church, Reno, at a meeting Tuesday, decided to give an entertainment at the Nevada Theater Tuesday evening, March 1st.

The Appeal says that Ross Lewers, the gentleman from Ormsby, wears an old gold colored eye. We suppose that means a black eye about three days stretched.

Miss Ida Coats had the misfortune last evening to fall down the stairs at the Reform Club Hall. Though stunned and somewhat bruised she fortunately escaped any serious injury.

We notice a new meat market opened on the northeastern corner of Virginia and Second streets. We have not learned who the proprietor is, but we presume his meat is eatable, from what we have seen of it.

The railroad surveys on the N. & O. railroad are still in town, awaiting the return of Col. Moore, and Governor Wood, from New York. These gentlemen are expected in Reno in about a week or ten days.

All boys under 16 years of age who wish to join the Juvenile class of the Reno Athletic Club will please hand their applications, signed by their parents to W. J. Hendley Secretary. The admission fee is \$3, and the monthly charges for instruction \$1.

Judge Rising of Virginia City, came down last evening on his way to Wincennes, for the purpose of presiding in Judge Bonfield's place during the trial of an important mining suit, in which the latter is interested. Judge Rising will be absent about a week.

The small sky terrier dog, a pet at the Depot Hotel, mysteriously disappeared from the hotel yesterday afternoon. It is not known whether it was stolen or strayed away. It was very much prized by the proprietor of the house, who will suitably reward any one who will return it to the hotel.

It is reported that a proposition is now before the Legislature to buy the Steamboat Springs property, and convert it into an Insane Asylum. We were told yesterday that a bill to that effect would be introduced immediately, by a Senator who has taken the trouble to ascertain what the property can be bought for.

A New Time Table.

The through express train from Reno on the Virginia and Truckee Railroad now leaves and arrives as follows:
Leave Reno 8:35 A. M.
Arrive at Carson 9:50 A. M.
Leave Carson 10:00 A. M.
Arrive at Virginia City 11:20 A. M.

Theater.

Attention is called this morning to the advertisement of the Vandaville Star Combination Theatrical troupe which will visit Reno to-morrow evening. They appear at the Nevada Theater for one night only. It is a strictly first class and moral entertainment. Little Flora Walsh is one of the pleasing features of the play. The show consists of minstrel variety and dramatic performance; and the company contains ten performers.

State Printing Office.

The JOURNAL is indebted to J. W. Maddrell, Superintendent of State Printing, for the several reports of State officers, in pamphlet form, and other printed matter useful for reference. Mr. Maddrell has succeeded in satisfying experts in the art of printing that he thoroughly understands the position to which he was appointed, despite assertions to the contrary by those seeking the place. All the work from the office, so far as we have seen, is done in a tasty and workmanlike manner.

Something New.

The latest improvement in lamps is what is known as the Combination Lamp. A gross of them was received yesterday by Chas. Knust, direct from the East. It is quite a novelty in the lamp line. They are all metal, heavily nickel plated, make an ornamental stand lamp and by a simple contrivance are easily adjusted into a side, or bracket lamp. The combination is the most convenient lamp yet invented. Knust also received at the same time a box of hurricane lanterns, warranted to burn in the heaviest wind, upside down or any other way.

Losses by the Franktown Flood.

The losses to the citizens of Franktown and vicinity, occasioned by the bursting of the Little Valley reservoir, have been estimated as follows by the joint committee appointed by the Legislature to make an investigation of the losses:

C. A. Lee, store and house	\$1,200 00
George Murray, house and personal effects	250 00
Mrs. Rogers, house and furniture	300 00
Gildo Corecco, house, barn, dairy and ranch	6,000 00
J. Harcourt, house and land	300 00
E. Twaddle, damage to land	50 00
J. Brost, house	200 00
J. Pasco, house	200 00
Good Templars' Hall	600 00
J. H. Dall, ranch	10,000 00
Mrs. S. Bowers, furniture	200 00
F. B. Hall, store, house and personal effects	1,000 00
C. M. Cobb, house and land	200 00
Manuel Catina, house and land	200 00
John Duvall, hotel and land	1,000 00
Total	\$21,750 00

Roller Skating Rink.

A gentleman arrived in town yesterday from San Francisco, who contemplates starting a roller skating rink in Reno, if he can obtain a suitable place. He proposes to engage, if possible, the lower floor of the Pavilion, and put in a new smooth floor over the present one to suit the purpose. It is probably the best place in town, and as the Agricultural Society will not need the hall for some months, we presume it can be obtained cheap. As the dancing parties have become monotonous for the present, a change to skating will be an acceptable one, and undoubtedly a good rink would be a paying investment. Should the present scheme fall through, it should be taken up by some of our own townsmen. The skates are not a very costly article, and if desired we believe they can be rented from parties keeping them for that purpose. At all events, if we cannot get the State Prison or Asylum, let us have a skating rink!

At it Again.

The town was full of drunken Indians again last night. Several squaws were reeling around the streets so fearfully drunk they could scarcely navigate. Is it possible the sale of whisky to these miserable creatures cannot be stopped? The officers have tried every means in their power to discover the perpetrators without avail. A few, it is true, have been caught and punished, but still the Indians manage to get whisky in some way. It is believed that they obtain it out of town, as those in town have been closely watched for months. God help the next fellow who is caught in the act of selling or giving Indians liquor, whether in or out of town.

The New Theatrical Company.

The new theatrical company, which has recently been organized in Reno, are nearly ready for business. They are now devoting themselves in studying their parts in different plays. They are all old actors, and propose to give a new piece each night they play. It is the understanding that they will favor Reno with a couple of entertainments before they start out on their Eastern tour. They will also visit Truckee and Carson, then to the eastern portion of the State, stopping at the different towns on the way; thence to Idaho, through Montana and then to the Eastern and Southern States. They will be absent about two years.

A Mrs. Grunther, arrived at the depot from Mason's Valley yesterday, with two children in destitute circumstances. It appears that her heartless husband, brought her from England about a year ago, and about a month since, told his wife he was going to Carson on business, and would return in three days. He left and his wife has not heard a word from him since. He has evidently deserted her. The unfortunate woman is trying to make her way to New Orleans, where she has a married sister. She is certainly an object of charity. The big hearted Joe Price, heard of the unfortunate condition in which the woman is placed, and sent for her, and is now boarding her at his restaurant until some provisions can be made, for the maintenance of herself and children, or, until she can be sent on to her relations in New Orleans.

A Find.

The Enterprise of yesterday says: It is said that an Italian who was employed on the recently raised milk ranch of Gildo Corecco, Washoe Valley, while following up the course of the big canyon above Franktown to view the ruins of the reservoir, the breaking of which wrought such destruction below, picked up a nugget of gold weighing a trifle over nine ounces. A man with him found a piece weighing some pennyweights. The banks and bed of the canyon are said to look as if a river of nitroglycerine, in an active state of combustion, had flowed past and over them. In two or three places quartz veins were laid bare, but they seemed to be wholly composed of barren white quartz. The gold found evidently came from gravel, either in the banks or bed of the canyon.
